The Wiring Specialties OEM SERIES R32 RB26 Knock Sensor Sub-Harness is designed for a direct drop-in installation into a Skyline R32 RB26DETT engine.

RB26DETT Knock Sensor Harness | Wiring Specialties

RB20DET: x x x x; SR20DET: x x x x x; While the RB20DET offers great out of the box performance, there are rumours that the engine can suffer from high corner load oil starvation - whether this is true or not we can't say. The RB20DET also makes less power and less torque out of the box in it's most powerful configuration against our SR20DET.

RB20DET Vs SR20DET - Head To Head Battle | Drifted.com

Plug and play knock sensor harness for Nissan's and Datsun's with an RB25DET swap. Startup guaranteed with professional tech support.

RB25 Knock Harness - OEM SERIES | Wiring Specialties

The stock RB20DET turbocharger is a tiny, T3 framed baby. Due to its ceramic turbine wheel and small size, the stock turbocharger begins producing useable boost very low in the RPM range on a stock RB20DET engine. But because of its ceramic turbine wheel, the stock turbocharger is

notorious for failing at higher boost levels.

Rb20det Noise , rod knock , spark knock, lifter knock??

A car knock sensor is located on the intake manifold, cylinder, or engine block. The purpose of the knock sensor is to sense unusual pulsations caused by the engine detonation. It is basically the computer's ear to the engine to determine if it is working properly.

Is it Safe to Drive With a Faulty Knock Sensor ...

Knock occurs when the peak of the combustion process no longer occurs at the optimum moment for the four-stroke cycle. The shock wave creates the characteristic metallic "pinging" sound, and cylinder pressure increases dramatically. Effects of engine knocking range from inconsequential to completely destructive.

Engine knocking - Wikipedia

When your engine starts to knock the clock starts ticking! If it's left unattended you could run into severe issues like a blown engine. Luckily, we have a few options for you to explore. Read more to learn about engine rod knock.

Engine Knocking | What to Do with an Engine Rod Knock

The knock sensor will not save an engine from the effects of a serious knock and should not be viewed as a safety valve. It is an emergency only option and will only work effectively in mild situations. The causes of engine knock are many and varied. Generally it is caused by high pressure inside the engine.
