Loren, I think he is talking about fluid migration coming from overfilled clutch reservoir( on the plastic around the filler cap) due to fluid migration from steering system to clutch system. It is due to a faulty slave. I had the same problem a year ago and did a DIY because of this problem....

### **Boxster Top Won't Operate - renntech.org**

You need to put the emergency brake on as well. And as I have learned the hard way. When the top gets about half way down. Stop and make sure the rear plastic window is folding in at the center by taking your hand and just chop at it like you where in a judo fight lightly. It's call the Boxster chop. If you don't do this.
