My service engine soon light keeps blinking on and off ...

On the way home today my 2001 mustang 3.8 L started misfiring. I noticed that the service engine soon light started flashiing. I pulled into the auto zone to check for codes. No codes. I figured that maybe i got a tank of bad gas. I poured a can of seafoam in the tank and drove until the tank was empty. It continued to misfire under a load.

Service Engine Soon light flashing - OBD-Codes.com

My service engine soon light started flashing and it felt like the engine was running rough/missing. When I stopped and waited like the manual said and restarted it. It started, but died right away. I started it again and it was running rough still. The service engine soon light came on, but wasn't flashing. Do you think this is a serious problem?

What can cause a check engine light to flash? - JustAnswer

The check-engine light may be a graphic of an engine or similar icon, or it may contain the words "check engine" or "service engine." In some vehicles, a red check-engine light means the car needs absolute immediate attention while a yellow check-engine light means you need to make an appointment soon.

Why Is My Check Engine Light Flashing? | It Still Runs

The purpose of the "service engine soon" light is to warn the operator that sensors in the vehicle have detected a malfunction. When we first see this little light on our dash we get a little worried at the potential cost of the repair. Immediately we assume the worst and fear a bill in the hundreds ...
