The Scania K series is a series of chassis in Scania's city bus and coach range with longitudinally, straight-up mounted engine at the rear, replacing the K- (K94, K114, K124) and L-type chassis of the 4 series. The K series was first presented on Busworld 2005 in Kortrijk, Belgium and models were available from 2006.

Scania K series - Wikipedia

Scania AB is a major Swedish manufacturer of commercial vehicles – specifically heavy trucks and buses. It also manufactures diesel engines for heavy vehicles as well as marine and general industrial applications. Scania AB was formed in 1911 through the merger of Södertälje-based Vabis and Malmö-based Maskinfabriks-aktiebolaget Scania.

Scania AB - Wikipedia

There was some criticism about the lack of a 13-liter engine for long-distance hauling, but actually 350hp was the mainstream rating at that time so the Scania 341hp engine was competitive. Note: Scania's 14.19 liter DSC14 V-8 of the time (and by no coincidence the same displacement as the Mack ENDT866), was available up to 500 horsepower and ...
