Sea Ray Engine Alarm

First off any serious alarm you get usually results in you not being able to bring the engine up to full throttle afterwards. For instance, low oil level in your outdrive reservoir will give you the constant alarm every one mentions but you also cannot bring up the engine RPMs since the ECM won't allow it.

The audible warning alarm on my Searay(NNN) NNN-NNNN went on and it's creating to type of sound sirene an beeping sound. When it started I found out that the drive lube reservoir is low so I fill it up to operating range but the alarm still on. Then I change the gear oil in the stern drive but then again it didn't fix the problem.

Mysterious Alarm - Boat Talk - Chaparral Boats Owners Club

Q: My 1999 Sea Ray Sundancer with a MerCruiser Bravo Three has had an ongoing problem that is so elusive the mechanics can't find it. When driven after several days of nonuse, the engine labors and won't exceed 3200 rpm at full throttle. Restarting after partial cool down typically results in better performance.
