A relief valve or pressure relief valve (PRV) is a type of safety valve used to control or limit the pressure in a system; pressure might otherwise build up and create a process upset, instrument or equipment failure, or fire. The pressure is relieved by allowing the pressurised fluid to flow from an auxiliary passage out of the system. The relief valve is designed or set to open at a ...

Sustainable energy is a principle in which human use of energy "meets the needs of the present without compromising the ability of future generations to meet their own needs." Sustainable energy strategies generally have two pillars: cleaner methods of producing energy and energy conservation.. Sustainable energy technologies are deployed to generate electricity, to heat and cool buildings ...

All the Passive Aggressive Stuff You Should Never Do in a Relationship. Nobody enjoys being with someone who is always passive aggressive. If you're not sure what that looks like, here's an excellent, and funny, demonstration. "The key to a great relationship is control.." says the doomed couple in this video from the Awaken.

Terri Patsos Stanley, the manager of a small short-term rental business, has used IT to help her better perform many of these roles. Patsos Stanley pioneered the concept of providing business travellers with high-quality apartments as an alternative to staying in more expensive and often less convenient hotels in the Boston area.
