Do it yourself CNC projects are popping up everywhere and we decided that we wanted to contribute to the growth.. Here are a few of our design goals: Modular Design - We wanted to do more than just keep cost down.We wanted things to be reusable and up-gradable. (Arduino , Individual Stepper Motor Drivers and more...); Compact Design - Squeezing a 4 axis design into a board the same size ...

I have only come across a handful of standard projects (non-BIM deliverable projects) which included digital virtual clash detection. Generally it is only employed if it is a client or contractor deliverable. Within design contracts, it is a requirement of building design consultants to "coordinate and integrate" their designs with other consultants (refer to below contractual clauses **).
