The valve that replaces the Rainjet Classic is fairly inexpensive. I suggest you replace the entire valve. With that said, I've repaired many Rainjet valves myself for various reasons. It depends on what the bonnet of your valve looks like. I don't remember if the older 711 style Rainjet said Classic on it or not.

I have a Rain Jet classic RJ711 valve system. When the controller automatically activates the system the sprinklers do not rise and the water flow is confined to the edges of the sprinklers. When either the solenoid or bleed screw is turned counter clockwise as directed I get an excellent spray. What is the problem and how do I fix it?

### **Sprinklers function only when solenoid or bleed screw ...**

Use this Lawn Genie 150 psi RJ Anti-Siphon Valve with Flow Control to help prevent irrigation water contaminants from entering the drinking water supply. This anti-siphon valve features a pressure-activated double-beaded diaphragm to strengthen the seal between the body and bonnet, external bleed, as well as flow control.
