Re: EZGO Power Wise 28115 G04 charger question Battery isolators are commonly used in boats, RV's etc to isolate the starting battery from the accessory/back-up battery. Anytime batteries are connected in parallel, each battery is likely to be at a different potential (voltage) and will want to charge the lower voltage mated battery.

### **EZGO Power Wise 28115 G04 charger question - Buggies Gone Wild**

You need to charge the batteries individually with an automotive battery charger untio they produce enough voltage for the charger to turn on. You can also use jumper cables to connect you battery pack with another golf cart of the same voltage. The current will pass from the other cart to yours and show the charger enough voltage to turn on.
