Automatic vs Manual Transmission

Hi there. So here's the back story: I'm looking at getting a 2014 Scion FR-S sometime within the next month and I'm having trouble deciding between an automatic or manual transmission. The car is to be a daily driver, mostly for commutes back and forth to work. I don't experience much, if any traffic on the way to work. I do love road trips as well.

Automatic VS Manual transmission? | Yahoo Answers

If you are too lazy or don't have time to read all that's on this site here's the one sentence executive summary: manual transmission (MT) cars use less fuel and give you more control over the car but are less convenient, while automatic transmissions (AT) burn (a little) more gas, provide less control but they are easier to use. Costs

Manual vs. automatic transmission

Where the semi-automatic transmission differs from a manual transmission, and the part that makes it semi-automatic, is that instead of cables and pipes running from the transmission to the driver so that they can affect gear changes, you have actuators and computers doing all that hard work for you.

What Is a Semi-automatic Transmission? | AxleAddict

A semi-automatic transmission (also known as a clutch-less manual transmission, auto-manual, automated manual transmission, trigger shift, flappy-paddle gear shift or paddle-shift gearbox) is an automobile transmission that combines manual transmission and automatic transmission. It allows convenient driver control of gear selection.

Semi-automatic transmission - Wikipedia

Best Answer: a manual is faster than an auto 95% of the time. that is, if it is a traditional automatic. dual clutch and automated manuals/semi-auto transmissions usually beat manuals because they are computerized to have faster gear changes. i'm not sure about the incline question, but i don't think it ...
