I have a 2003 Polaris Genesis 1200 I. My problem is that it has a hard time getting warmed up. It dies 20-30 times while I first use it for the day. Once it warms up it runs fine. So far I have tried, a new EMM, TPS, new plugs. I have run several tanks of gas through it so I know its not bad gas. It ran fine until I took it to get a tune up.

Jerry I would stay off of any lake that still allows a Polaris on the water. The injected Genesis has problems with stators and ECMs. The last ECM I replaced was almost 2 years ago, and then it was around \$1200 for the part alone.

### **Anyone have any experience with a Polaris Genesis? | X-H2o**

2000 Polaris Genesis 1200. Fuel line had broken, so I had to hold line in to get motor running. Engine runs well, with exception of fuel line.

### **2000 Polaris Genesis 1200**

Engine does not start, no spark => Replace the battery with a new battery The CDI on domestic engines requires the battery to deliver more than 10.6 volts while cranking the engine. An old or weak battery can not deliver enough voltage while the engine is cranking, and you will not have spark. This is a very common problem with Polaris PWC.
