tweak the 30D to give color almost as vivid as I can get. The 30D has a much wider range of saturation adjustment than most other cameras, so halfway up on a 30D is the same as all the way up on a 20D, D80 or D200. I leave everything at normal, and set the saturation to +2, +3, or, if I'm sitting down, +4. +4 is pretty wild. Try them for yourself.
