Fire Protection Engineering - Whole Building Design Guide

Welcome to the NCNSFPE website The Society of Fire Protection Engineers was established in 1950 and incorporated as an independent organization in 1971.

NCNSFPE

SFPE Guide to Human Behavior in Fire This Guide is the singular resource for the fire safety community, distilling the most relevant and useful science and research into a consensus-based guide whose key factors and considerations impact the response and behavior of occupants of a building during a fire event.

SFPE

The United States has the highest fire losses in terms of both frequency and total losses of any modern technological society. New facilities and renovation projects need to be designed to incorporate efficient, cost-effective passive and automatic fire protection systems. These systems are effective in detecting, containing, and controlling and/or extinguishing a fire event in the early stages.
