Bird Care Guide: Finch. Finches are small, active, fairly quiet birds that do not require nor enjoy much human interaction. They need to be kept in pairs or groups. Finches are extremely easy to care for, are undemanding and affordable. They make great pets for children and beginners. Just remember, they do not like to be handled by humans.

Waxbills. Waxbill is a general term for these exotic finches, but there is a family within Estrilididae which are called Waxbills. These tiny birds can be more expensive than those mentioned above, with some species over £100 pair, and they can have more specific accommodation needs, again depending on their breeding.

The House Finch is a recent introduction from western into eastern North America (and Hawaii), but it has received a warmer reception than other arrivals like the European Starling and House

Sparrow. That's partly due to the cheerful red head and breast of males, and to the bird's long, twittering song, which can now be heard in most of the neighborhoods of the continent.
