The amazingly brilliant display of your new Sharp AQUOS LED Smart TV likely caught your eye when you first saw it in the store. To catch your attention on harshly lit showroom floors, TVs are shipped configured to display at their maximum brightness which doesn't always make for the best experience when it comes time to watch that same screen at home.

Step. Select "Manual Update" and then select "Network Update." The Sharp Aquos scans to see if an update is available. After the scan is done, the current version of your TV's firmware and the updated version of the firmware are displayed in a dialog box.

Where can I find my model number? All Sharp products have a model number stated on them, some in more than one place. The model number can be found on the original box the item was purchased in, on the product manual, and on the product in the locations described below.
