Your axles may be equipped with the Rockwell American Posi-lube system which provides for lubricating the hubs at a special grease fitting. This option allows grease to flow through specially machined axle spindles, which have been drilled to allow the grease to be passed from the fitting to the inner bearing and back out through the outer bearing.

cover of the rockwell rebuild manual The first Axles, I ever rebuilt myself, were Rockwells using this Manual! For two years, I ran a custom 4x4 Fab Shop, (Bust a Nut Fabrication) that specialized in full size crawlers. I always sub-contracted out the axle rebuilds, because my focus has always been on fabrication.
