Reed Organ Information - "Soup to Nuts" Below are over 100 points of information that I've done on the reed organ. It's basically a "soup to nuts" compilation. My guess is that you, like so many other people that own reed organs, don't know a whole lot about what makes them tick.

Pump Organ Information - "Soup to Nuts" - Pump Organ ...

The pump organ, reed organ, harmonium, or melodeon is a type of free-reed organ that generates sound as air flows past a vibrating piece of thin metal in a frame. The piece of metal is called a reed. More portable than pipe organs, free-reed organs were widely used in smaller churches and in private homes in the 19th century, but their volume and tonal range were limited.
