### **Rover V8 Engine Number Location**

Engine Number Identification. The engine number of most Rover V8s is stamped on the left hand side of the block deck, adjacent to the dipstick tube, although some very early engines had the number stamped on the bellhousing flange at the rear of the block. The chart also contains a brief description of features, such as compression ratio...

Lotz-A-Landies. The engine number on a Rover V8 should be on a flat to the LHS of the block between the middle two cylinders. I think that is cyls 3 and 5. You can see it in the gap in the exhaust manifold.extractors but the first and last digit may be obscured. Others will soon tell me if I'm wrong - but if the block has been machined (decked)...
