With the engine pressurized with 5 PSI of air through the carburetor pulse line and soapy water squirted all over the motor I discovered a porous crankcase casting bubbling like crazy. A few emails to Simonini along with some pictures of the bubbles got a new crankcase to my door in 8 days, no charge as the motor was under warrentee.

One of the guys who used to post over on the BackCountryPilot.org forum ran the Simonini Victor 2 on a CH-701 STOL homebuilt. He told me that it was a significant improvement over the Rotax he replaced with it. But... I have no personal experience with either of these engines. Edited 28 Nov 2014 by EZFlap
