Rotax Atv Engines

Rotax ATV Engines. Rotax ATV engines are liquid-cooled, 1- and 2-cylinder and 4-stroke engines which are especially designed for ATV applications. These engines can cover a range between 400 and 800 cc. ATV engines come with gearboxes with foot-lever shifting, or with CVTs (continuous variable transmissions).

CAN-AM® ROTAX® ENGINES

About the rotax engines in the atv's they are good but the only thing to look for when the miles add on is the timing chains. For the rest they are reliable. My 2006 800cc had 46400 kil. when I sold it and now my 2009 800r has 30000 kil. and did the timing chain job at around 23000 kil. But maintenance is the secret .
