Continental O-470 engines may be modified only at P. Ponk Aviation or at a facility we have authorized. To convert a stock Continental O-470 engine to the Super Eagle requires several internal changes, but the first and most obvious is to exchange the O-470 cylinders for O-520 cylinders which increase the engine displacement by 50 cubic inches.

I just got my continental 470U modified to a 470-50 P Ponk engine. During break in the alternator belt keeps coming off. Run up okay, takeoff ok, climb ok, once in level flight belt pops off. Time is around 15 minutes. Happens every time!!! Tried 2 separate belts (continental and Cessna) Belts not torn up but not used again.

## **P Ponk throwing belts | Pilots of America**

A P.Ponk engine modification is not required to operate safely out of a majority of airports, and certainly not airports where the majority of 182 pilots fly. How many 182s are owned in the flatland states or back east? Backcountry "strips" are generally a western State thing.

Charlie Melot of Zephyr Aircraft Engines in FL, who really is an excellent engine guy, often said that the lower compression 470 engines were in his long experience more likely to make 2,000 hours than the higher compression 470-U engines. Charlie, by the way, just sold his shop last year to longtime employee L.J. Warren.

P-ponk vs Texas skyway engines. I'd like to know the pros and cons of a Texas skyway and the pro and cons to a P-PONK. I've read through many threads on here so far and have heard not so good things on a TS engine and nothing bad on pponk yet. Looking for answers and recommendations if buying a bird that has a O-550 TS is a risk and to avoid or ...
