1997 Boxster - battery is dead, manual trunk release by drivers seat are locked solid. Tried jump wire to c3 fuse, but steady alarm sounds and keys(2) will not release front trunk hood. Removed liner from front wheelwell on drivers side, but there is no manual trunk release cable. What should I try next?

### **1997 Boxster - battery is dead, manual trunk release by ...**

The thread confirmed that in the case of the Porsche 997, plus 987 Boxster and Cayman, the emergency bonnet release is located in the left-hand front wing, and access is gained by removing the liner and reaching in. It included a very clear photo showing the location of the release, which I've taken the liberty of borrowing:
