One of the more elaborate covers I've seen was when someone cut out the HEMI and 5.7L callouts using a Dremel, then secured a layer of semi-opaque plexiglass underneath the cover and placed LEDs around the perimeter, back-lighting the callouts. It was quite nice. Something like this (but with the 5.7L cover):

The beauty of the 5.7-liter HEMI engine shroud configuration is that it simply snaps in place. A quartet of mounting pins, attached to the engine, accept rubber O-rings. Installation, or swaps, can be done in seconds and requires no tools. It may look like a second gen 426 HEMI in this LC Challenger, but don't be fooled!
