1. Introduction. One fear to rule them all, one fear to find them, one fear to bring them all and in the black box bind them. The pastiche of Tolkien's text (1954) represents an ideal place to begin a review and synthesis designed to provocatively develop and evaluate the proposition that "fear of the unknown may be a, or possibly the, fundamental fear" underlying anxiety and therein ...

A quantitative analyst (or, in financial jargon, a quant) is a person who specializes in the application of mathematical and statistical methods to financial and risk management problems. The occupation is similar to those in industrial mathematics in other industries. Although the original quantitative analysts were "sell side quants" from market maker firms, concerned with derivatives ...
