RE: 2007 Volvo XC90 90k miles Pulled into my driveway last night with the power steering working intermittently for last 5 minute leg of my trip. Woke up this morning with no power steering and squealing noise coming from engine. No fluid leak on driveway. Drove to dealer with no power steering. Very hard to turn wheel - even while moving.

The power steering belt is an important part of the power steering system in your vehicle. The belt can either be a V-belt style or more commonly a serpentine belt. The belt supplies power to the steering, and in some cases the air conditioning compressor and alternator.

### **Symptoms of a Bad or Failing Power Steering Belt ...**

How can I tension the power steering belt on my Volvo Penta 5.7 GSi PWTR? There are 3 bolts that mount the power steering pulley. The bottom one just spins, it doesn't seem to loosen. The left most one can be loosen and then the topmost one has an adjustment slider. Should I use a 1/2" sock in the square hole on the power steering pump housing?

Now, about 3 or 4 days ago, the steering got tight again. My fear is that they are going to tell us it is the rack and charge us another \$1,200. Is it possible it is just the belt or another issue with the new pump? What could be causing the power steering to come and go like that? The pump is under warranty for a full year.

I'm nearly positive that the power steering pumps, if installed properly, are working just fine. It is the power steering lines, and the power steering rack and pinion gear that I am concerned about. Also, the system has to be self-bled to work properly. Before anything else, raise the front end and support it with jackstands.
