My service engine soon light keeps blinking on and off ...

On the way home today my 2001 mustang 3.8 L started misfiring. I noticed that the service engine soon light started flashiing. I pulled into the auto zone to check for codes. No codes. I figured that maybe i got a tank of bad gas. I poured a can of seafoam in the tank and drove until the tank was empty. It continued to misfire under a load.

Service Engine Soon light flashing - OBD-Codes.com

The most common cause of a blinking Service Engine Soon light is that your vehicle's ignition system is misfiring. Spark plugs are only part of your ignition system. Depending on your year, make, and model - you could also have spark plug wires, distributor cap, rotor button, ignition coil(s), etc.

"SERVICE ENGINE SOON" light is blinking, Car having ...

My service engine soon light started flashing and it felt like the engine was running rough/missing. When I stopped and waited like the manual said and restarted it. It started, but died right away. I started it again and it was running rough still. The service engine soon light came on, but wasn't flashing. Do you think this is a serious problem?

What can cause a check engine light to flash? - JustAnswer

The check-engine light may be a graphic of an engine or similar icon, or it may contain the words "check engine" or "service engine." In some vehicles, a red check-engine light means the car needs absolute immediate attention while a yellow check-engine light means you need to make an appointment soon.

Why Is My Check Engine Light Flashing? | It Still Runs

The purpose of the "service engine soon" light is to warn the operator that sensors in the vehicle have detected a malfunction. When we first see this little light on our dash we get a little worried at the potential cost of the repair. Immediately we assume the worst and fear a bill in the hundreds ...

What does a blinking Service Engine Soon Light Mean and how to clear it?

I've got a 2010 F-150 STX with 4.6L engine. About 2 weeks ago, the service engine soon light came on and wouldn't go off. I took it to the dealer who just 'reset' the codes. The light does not stay on now, but I noticed that when the key is put in the 'on' position and 15 sec or so goes by, the service engine soon light will blink 8 times.

Service Engine Soon Light Blinking - Ford F150 Forum

I was leaving work and it was pretty cold so i was reeving up my engine trying to warm it up quicker. i got to the corner of the parking lot and felt the truck shaking. so i stopped to look at the engine and it was shaking. so i went to park it and it had no power, i was giving it gas but it would barely move. and when i first felt the shaking i noticed the engine light was flashing. i changed ...

Your cars check engine light is designed to let you know there is a problem with one of your car's computer monitored systems. This will be a sensor or a mechanical failure of some kind. The check engine warning light is also known as a service engine soon light or a MIL (malfunction indicator light).

How to Get Check Engine Light Codes - 2CarPros

If the check engine light of your BMW is on, it will either remain constant or blink depending on the issue. A steady light for the check engine indicator means that the issue is likely not serious or an emergency. However, a blinking check engine light usually means that there is a serious engine misfire.

What Does a Blinking Check Engine Light Mean on a BMW?

Service Engine Soon - This warning light can indicate almost anything from a loose gas cap to a serious knock in the engine. A loose or faulty gas cap can cause problems with the fuel sensor. The fuel sensor is responsible for monitoring gas usage and improving gas mileage.

What does service engine soon light mean? Learn how to ...

Check Engine Light: The Mechanic's Dirty Little Secret. What your mechanic probably won't tell you is that you really didn't need to shell out \$100 just for them to hook up an OBD-II scanner to check on the service engine light. You can get that for free at most auto-parts stores. I've had this done at NAPA and Advance Auto Parts.

Service Engine Light: Your Mechanic's Dirty Little Secret

Flashing check engine light is something they call a "class A misfire", basically it means that there's a dead cylinder. This also means that it's potentially dumping raw fuel into your exhaust which can

and will damage your expensive cat. It's not advisable to drive with a flashing check engine light, doing so will lead to a more costly repair.
