The 4 98 Ford industrial engine was used in many skid steers. It is basically a pinto engine ran at lower speed with a governor. I had a skid steer with one and thats what I was told. Probably a lot bigger than an Onan though. As long as the RPMs are the same and the drive for the pumps is lined up, you should be able to put a diifferent engine ...

Skid Steer History. Back in 1957, brothers, Cyril and Louis Keller were approached by a local turkey farmer who had a problem. Could they think of a way of a way to get all of the turkey crap out of his barns in a more efficient way than the cumbersome front loader machine that they employed, as it wasn't able to maneuver sufficiently around the space?

Depends on the repower, should be quite easy. Skid steer engines are direct coupled to the hydraulic system, simple enough, may need to fabricate some engine mounts and such, the rest is simply controls and gauges for the engine. Hard if you never done any of it before, easy for a tinkerer. If it were me and I could buy it cheap enough I would ...
