(1) LC-2010 Injection Mechanism. The LC-2010 incorporates a solvent delivery unit, autosampler, column oven, and detector. To produce a synergistic effect between the various units in the integrated system, we wondered whether an auto purge function could be added to the high-pressure 6-way valve for sample injection in order to resolve the issue of draining the solvent delivery unit, which ...

HPLC - Shimadzu - Part 1 (Introduction)

High performance liquid chromatography is basically a highly improved form of column chromatography. Instead of a solvent being allowed to drip through a column under gravity, it is forced through under high pressures of up to 400 atmospheres. That makes it much faster.
