12. (4 points) The later a problem is found in the software development process, the harder it is to fix. Explain why, in one sentence. Other work may be built on a flawed foundation, so correcting the original problem may require significant rework. If the software has already been widely distributed, it might be expensive to get a fix out.

Midterm exam - University of Washington

The Written and Oral Preliminary Examination(s) is considered the first department-wide evaluation of a student's research ability in the Ph.D. program. Students are expected to take the Written and Oral Preliminary Examination by the end of their second year in the Ph.D. program (however, with the support of their advisor, students may petition the Director of Graduate Studies for an extension).
